Request for advisory opinion:

I wanted to get an opinion on a topic discussed at our last Louisiana Crawfish Promotion and Research Board meeting.

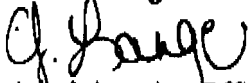

The University of Lafayette is contracted with the Board for research and development of an automated crawfish peeling machine.

The University of Lafayette asked the Board if any of the members have crawfish available for testing in the prototype.

If a Board member were to supply the University with the crawfish needed for testing and then the Board would reimburse that member for the crawfish at market price - would this be acceptable under ethics rules?

We thank you for your help on this matter.

Jessica Lange

Administrative Officer

Louisiana Crawfish Promotion & Research Board
